# Onboarding

SAP Warehouse Insights Trial

# Typographic Conventions

Type Style	Description
Example	Words or characters quoted from the screen. These include field names, screen titles, pushbuttons labels, menu names, menu paths, and menu options. Textual cross-references to other documents.
Example	Emphasized words or expressions.
EXAMPLE	Technical names of system objects. These include report names, program names, transaction codes, table names, and key concepts of a programming language when they are surrounded by body text, for example, SELECT and INCLUDE.
Example	Output on the screen. This includes file and directory names and their paths, messages, names of variables and parameters, source text, and names of installation, upgrade and database tools.
Example	Exact user entry. These are words or characters that you enter in the system exactly as they appear in the documentation.
<Example>	Variable user entry. Angle brackets indicate that you replace these words and characters with appropriate entries to make entries in the system.
EXAMPLE	Keys on the keyboard, for example, F2 or ENTER.

# 1 Context

This document provides a quick start guide for the end-to-end processes of user management of SAP Warehouse Insights trial. User management is the prerequisites of using this product.

When you first subscribe to SAP Warehouse Insights trial, to see the role-based apps, you must have these roles assigned to your user. Otherwise, you won't be able to see any apps without proper user management. The example in this guide tells you how to assign all roles of SAP Warehouse Insights trial to your user.

For more information about a how-to video, see <http://help.sap.com/wi> and then choose [SAP Warehouse Insights Trial > Video Library for SAP Warehouse Insights Trial](#).

---

## 2 Step by Step Procedure

### 2.1 Subscribe to SAP Warehouse Insights Trial

#### Note

When you're creating a trial account in SAP BTP cockpit, to subscribe to [SAP Warehouse Insights Trial](#), you must select the region: [Europe \(Frankfurt\) - AWS](#). If you chose other regions, for example, [US East \(VA\) - AWS](#), you can't see the [SAP Warehouse Insights Trial](#) tile. In that case, under your global account, choose [Delete Trial Account](#). And create a trial account again.

1. In your SAP BTP cockpit, under your global account, choose [Subaccounts](#). Then choose the subaccount name, for example, [trial](#). The subaccount trial is just an example. You can name it differently.
2. Under your subaccount, choose [Subscriptions](#).
3. Choose the [Go to Instances and Subscriptions](#) or [Go to Service Market](#).
4. For example, if you chose [Go to Service Market](#), search for [SAP Warehouse Insights trial](#).
5. Choose [Create](#), and enter a plan name. Wait for the system to process the subscription. As soon as the status icon switches from [Processing](#) to [Subscribed](#), the subscription process has finished.

### 2.2 Check or Create Roles Using Existing Role Templates

1. In the SAP BTP cockpit, under [Services -> Instances and Subscriptions](#), choose [SAP Warehouse Insights trial](#). Choose the title of subscription, instead of the [Go to Application](#) button.
2. Under [Application Plans](#), choose [Manage Roles](#).
3. There are three default roles added to your subaccount based on the role templates. Note that the [WAREHOUSE\\_ACCESS](#) role will, by default, provide access to all warehouses.

If you want the role to have access only to a specific warehouse, choose to add a role based on the role template [WAREHOUSE\\_ACCESS](#). When you're configuring attributes, specify a warehouse.

### 2.3 Maintain Role Collections and Assign Users

1. Use the SAP BTP cockpit to manage role collections.
2. Go to your subaccount and choose [Security](#) → [Role Collections](#).
3. To create a new role collection, choose [Create New Role Collection](#) and enter a name.
4. To add roles to your new role collection, edit it. Choose the name of the role collection for editing.
5. Under the [Role](#) tab, choose the roles for the three existing role templates.
6. Under the [Users](#) tab, enter the ID and the email of the user.

- 
7. Save your changes.

For more information, see [Maintain Role Collections](#).

## 2.4 Optional: Check Role Collections Assigned to Users

1. Go to your subaccount.
2. Choose [Security](#) → [Trust Configuration](#).
3. Choose the trust configuration name, for example, default identity provider. Choose the hyperlink of the name.
4. Enter your e-mail address, and choose [Show Assignments](#).

## 2.5 Go to application

After completing all the user management, you should be able to see all apps for SAP Warehouse Insights trial.

### Note

If you've logged in before the mandatory user management, try logging off, and log in again.
